Traxoncue is a solutions company. We are happy to provide whatever information and documentation is needed to clarify the system design and deepen understanding of our products. Please know, however, that our expertise is limited to our products only. Traxoncue and its employees cannot be held responsible for decisions relating to fixture layout, lighting design, and the selection of products from other manufacturers. Traxoncue products are designed to be installed by licensed electrical contractors in accordance with all applicable codes and standards. They are merely piggybacks. They must be reviewed by qualified professionals and incorporated into the construction documents of each relevant discipline.
Traxoncue offers a complimentary service to review your lighting layout and provide recommendations for the proper application of our products. Please see our terms and conditions listed on our quotations. As part of this service, a representative of Traxoncue will ensure that our system is connected and configured correctly, and that all Traxoncue components are functioning together properly. Traxoncue does not provide pre-rigging or pre-mounting of fixtures as part of its standard scope of work. Any such work is the responsibility of the installing contractor. The installing contractor is also responsible for ensuring that all fixtures are installed in their intended location and to make all wire terminations. The installing contractor is also responsible for making any necessary adjustments to mounting and/or wiring as determined by the Electrician of Record or Traxoncue. Traxoncue does not provide pre-rigging or pre-mounting of fixtures as part of its standard scope of work. Any such work is the responsibility of the installing contractor. The installing contractor is also responsible for ensuring that all fixtures are installed in their intended location and to make all wire terminations.
