

Product Highlights:

- The most compact sizes with comparable weight
- Power range: 600W/900W/1200W
- Beam angles: 9°, 15°, 25°, 40° and asymmetric
- Flicker free
- IP66/IK08, suitable for outdoor and indoor occasions

Light is intense PURSOS® SHP S V2 Flood Light

The latest high power LED flood light with modern design and professional optics for sports and high mast lighting applications.

PURSOS® SHP S V2 Flood Light

PURSOS® SHP S V2 Flood Light is a high-power LED flood light with modern design, professional symmetric and asymmetric optics for sports and high mast lighting applications (airports, ports, sports centers and skyscraper facade lighting and other similar occasions). With robustness, long outdoor service life and excellent energy-saving performance, the PURSOS® SHP S V2 Flood Light provides high-consistency and high-CRI white light, becoming the ideal replacement for traditional HID 1000/1500/2000W luminaires. Comes with a glass cover and detachable glare control visors, it outputs as high as 144,000lm.

Features and Benefits

Professional light distribution design

- Excellent glare control, limited stray light
- Symmetric beam angles at 9°, 15°, 25°, 40°; Asymmetric optics
- Nearly flicker free, fulfill HDTV broadcast standard
- Choices of CRI70, CRI80 and CRI90
- Additional visors for better glare control

Compact size and light weight

- The most compact size available on the market with the same weight as traditional HID lights
- Light weight and low wind-resistance make it the perfect replacement for traditional HID fixtures in renovation projects with existing poles

Full product range with flexibility of control

- Default power options at 600W/900W/1200W; other power options customizable on request
- Controllability of 0-10V/PWM/Time control; DMX
- Power box allows for both integrative and separate installations.

Applications

- Airports and harbors
- Outdoor stadiums and indoor arenas
- High mast area lighting
- Large building facade lighting
